

# **Complete three Adventure Dives (underwater photography, fish identification, etc.) and earn the Adventure Diver certification, a subgroup of the PADI Advanced Open Water Diver Course.**

## **Description**

The Adventure Diver course is a subset of the PADI Advanced Open Water Diver Course. Have you always wanted to try digital underwater photography, fish identification or dry suit diving? There's a long list of scuba adventures you can take part in during this program. Complete three Adventure Dives and you earn the Adventure Diver certification. It's a great opportunity to work with your instructor to build your scuba skills and gain more confidence. Get a taste of what you like and enjoy scuba diving more than ever.

Get credit! Each Adventure Dive may credit toward the first dive of the corresponding PADI Specialty Diver Course. If you've already taken a specialty diver course, ask one of our instructors if you've earned credit for an Adventure Dive.

PADI (Junior) Open Water Divers who are at least 10 years old and want to take the next step should enroll in an Adventure Diver course. Young divers may only participate in certain Adventures Dives – check with your Instructor.

## **Academic**

You can choose what you're most interested in learning. Need to work on your buoyancy skills? Try the Peak Performance Buoyancy Adventure Dive. Want to know what you're looking at down there? Try the AWARE - Fish Identification or Underwater Naturalist Adventure Dives. You'll plan your path with your instructor, go over what you need to know and dive in quickly.
